

January 28, 2009

Dear Faith and Casey,

Thank you for your devotion to the children at JOI through your gift of new coats by way of the Kids Cloths Club. The smiles on the faces of the children and moms are a sight to behold. We have 121 children at JOI and I work with the teen parents. You make my job easier when I know that the children I work with will be coming to the center and going out to the playground in a very warm coat. All the families I work with are struggling financially but working hard in school to make a difference in the future. I was afraid that with our current financial economy your dream of helping the needy children could not be met. I'm very thankful that by some miracle and your hard work the children of Lynn were not forgotten.

I wish you both and all your helpers and supporters a very safe and healthy new year. If I can ever be of assistance to you please feel free to call me at 781-596-1241.

Sincerely,

Donna Coppola/ STPC Case Manager
